

Captain's Bar is where top Filipino recording artists make their mark. But it's also the venue of choice for important cultural programmes and embassy receptions. The menu is as varied as the events that take place here.

By day, this is the place for doing business in a relaxed and sophisticated setting. But by night, Captain's Bar transforms into a live venue par excellence, where top names and popular retro bands play to an appreciative crowd. Take your pick from the exquisite menu: from sushi and sashimi, light tapas or hearty sandwiches.
